- Hiking
- Bowling

Information for Parents:

We welcome middle school youth to join us on Thursdays, when school is in session, 3:00—5:30 p.m. The Safe House program was first launched at Zion in August 2010, to provide a safe place after school for middle school youth activities.

Transportation from school is provided using the Safe House Van, picking up students in the circle near the main office of Middletown Middle School. When the youth arrive, after-school snacks and drinks are provided at no charge. Caring adult volunteers and high school helpers are at Safe House for welcoming the students and for supervision.

Middle School youth should be picked up after Safe House by 5:30 p.m. If your son/daughter has permission to go home with someone else, or will be leaving Safe House early with someone else, please text (or call or send a note) with your permission plus the name of the person taking them.

Opportunities for Extended Safe House are offered several times throughout the year. These may include outings, such as Pumpkin Patch visits, bowling or opportunities for service projects. Separate permission slips will be required and a nominal cost may apply.

Note : Background checks are required for our adult Safe House volunteers.

A Registration / Parental Contact Form must be completed and on file for each middle school participant. Forms are available from the school guidance office **or** may be requested from the Zion Church office (301.371.6500) **or** register for Safe House online at zionmiddletown.org

We suggest that students use the SAFE HOUSE transportation after school, rather than walking. Our van is well marked, with drivers over 25 years of age and approved by the church office. We pick up at the circle drive near the middle school front office. You may provide transportation yourself if you wish.
